Notes to Specifications

A. MARBLE/COMPRESSED MARBLE/LIMESTONE/GRANITE/QUARTZ

Marble/compressed marble/limestone/granite/quartz are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble/compressed marble/limestone/granite/quartz as well as non-uniformity between pieces cannot be totally avoided.
